Philips DVP3980_12

- New skins
- New filebrowser with scrollbars, outline font (limit to "yellow band" - intelligent file cutter, max. 64 char.)
- 3 MP3 TAG
- New icons for files.
- 4 fonts for subtitles. (small, standard, medium and large)
- Option to change colors for subtitles (text, outline or background). For "Dark Grey" option for background, this is "semi-transparent".
- Menu for "Load Original Subtitles, if not find load all" with 3 option "Load Original then all", "Load All" and "Load match name".
- Menu for set vertical position for subtitles.16 level for vertical position of subtitles (first 10 with 4px/step, last with 6px/step).
- All menu for avi subtitles are in "General Page". You can change fonts, color and position (vertical) when movie play
- Autoload subtitles
- For avi files "GoTo: h:mm:ss". When play avi files press "Title" 2 times and enter H:MM:SS to jump to moment you want.
- WordWrap and Reformat (if subtitles line is long, automatic make wrap).
- OSD font with outline, better contrast for all OSD message.
- DVD Quick Play. Menu is DVD-Video, with option "With menu" and "Without Menu". When second is selected, skip DVD menu and play main movie.
- Full support for unicod (ISO+ Joliet) for all CP.
- Partial fix volume level. Volume is not changed when switch disk, etc. Not stored on power on/off.
- Partial remove UOP ([User operation prohibition](#))
- **Add wmv support (I use RISC from 5990)**

Instruction for upgrading [HERE](#)

Version for CP 1250, 1251, 1252, 1253 and 1254 (CP = [Code Page](#))

Nick say:
Is this firmware compatible with 3880 model?
Many thanks.

Tuesday, 6 March,2012 13.25

David say:
Can you please tell me if this is compatible with a 3982-37 model? I would assume it to be the same, but you
are the expert! Thank you.
